

2021 Clinical Symposium and Members' Meeting Call for Proposals

Crowne Plaza Ravinia Hotel, Atlanta, GA • March 4-6, 2021

Deadline for Proposal Submission: October 1, 2020

The Research and Education Committee is excited to begin the planning process for the 2021 Clinical Symposium and Members' Meeting which is scheduled for March 4-6, 2021 in Atlanta, GA. We are beginning the planning phase for the meeting with the intention of having an in-person meeting but being mindful that we will need to continually evaluate the safety and feasibility of this. As we begin planning, we invite you to submit a session for the meeting. Sessions should focus on advancing clinical practice and improving patient outcomes. We welcome proposals for:

- *Feature Presentations:* 1-1.5 hour presentations with 1-3 speakers. These are in-depth presentations on one topic relevant to the interest of the membership and should be organized to fall within the domains of practice for athletic training.
- *Workshops:* 1-1.5 hour presentations with 1-3 speakers. These are presentations that also include a hands-on component to the session. Presentations must fall within the domains of practice for athletic training.
- *Special Topics:* 1 hour sessions featuring a lecture presentation and possible interactive discussion with 1 speaker. These sessions do not provide participatory hands-on activities. Presentations must fall within the domains of practice for athletic training.

Proposal submission with full instructions can be found [here](#). You will need to submit speaker information (including NPI numbers and CVs), presentation abstract, learning objectives, purpose or performance gap addressed by the session, and references at the time of submission.

If you are interested in presenting and Evidence-Based Practice Session or pre-conference workshop, please contact Lizzie Hibberd by August 15, 2020 at eehibberd@ches.ua.edu.

Thank you for your interest in submitting a session proposal for the 2021 SEATA Clinical Symposium and Members Meeting!
